HISTORY

CarmoCoffees now runs a complete Infrastructure at Benefício Pedra Branca where the company is able to process, store and trade both recently harvested cherries and fully processed beans delivered by our partners. Benefício Pedra Branca is a coffee buying & processing center located on the municipality of Pedralva, and more specifically at Fazenda Furnas. The farm itself comprises a coffee producing area large permanent environmental preservation areas and the processing plant which is a property of CarmoCoffees since 2013, consolidating a partnership started 3 years earlier, in 2010.
