## HISTORY

Located on the Minas Face of Serra da Mantiqueira, in the south of the State of Minas Gerais, is the Region of Mantiqueira de Minas, producer of high quality coffees.

With a centuries-old tradition in coffee growing, at altitudes between 900 and 1500 meters, it has a different terroir, due to the climate and environment, favorable to the production of specialty coffees. Coffee growing is in its fourth or fifth generation, demonstrating the regional potential and the preservation of man in the countryside.
