HISTORY

Most of the coffee gardens are located at the foot of Kerinci Volcano and bordering the Kerinci Seblat National Park.

Kerinci Seblat National Park stretches to the four provinces of West Sumatra, Jambi, Bengkulu and South Sumatra.

The park consists of the Bukit Barisan mountains that has the highest plateau in the Sumatra region. This national park also consists of hot springs, rivers, caves, waterfalls and the highest caldera lake in Southeast Asia. This national park also has a variety of flora and fauna.
